1. GREEN COFFEE INFUSIONS

with **MEDICINAL and AROMATIC PLANTS (MAP)**, **100% Natural, 0% Sugar**
SLIMMING in a healthy, tasty and lasting way !

WHY GREEN COFFEE?

Confirmed worldwide by medical authorities :

The ChloroGenic Acid (CGA) in Arabica green coffee has very beneficial effects on our cardiovascular health: it **BURNS FAT AND REDUCES SUGAR**,

an effective way to fight against the 2 major health problems of today: **OBESITY & DIABETES** !

But this CGA and its beneficial effects disappear considerably when the coffee is roasted.

Flor de Apia has therefore created an innovative process that allows green coffee to be taken directly as a tasty drink, with all its health benefits, stimulated by the addition of medicinal and aromatic plants (MAP).

Each variety contains **green coffee, damiana, horsetail and stevia**,

And for the flavor: **mint, forest fruit or piña colada**.

Pouch containing 6 compostable soylon sachets of 15g. There are 3 different flavors.

Infuse 1 sachet in 1/2 L. of hot water for 10 minutes, drink hot or as iced tea.

Intensive treatment: 2 sachets/ day **Maintenance treatment:** 1 sachet/day.

1st cup BEFORE breakfast: helps intestinal transit and eliminates cravings. Do not take at night, caffeine wakes up.
